INDEX TO VOLUME 15

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews and Society Transactions are indexed under these headings in their alphabetical order under the letters B and S, respectively.

Abscess: See also under names of organs and regions

peritonsillar, and mydriasis, 786

pharyngomediastinal, 649

retropharyngeal; periesophageal abscess; mediastinitis, followed by esophageal stenosis, 947

Actinomycosis, occurrence of actinomyces-like bodies in palatine tonsils, 130

of tongue and tonsil, 966

Adenoids, adenoidism and adenoiditis, 640

in relation to tuberculosis, 786

osseous choanal obstruction and adenoid tissue, *441

sponge-holder, *621

Advertising, medical, 959

Agranulocytosis: See under Angina

Allergy: See Anaphylaxis and Allergy

Altman: Anatomy of double congenital choanal atresia, 325

Amano, K. W.: Paranasal sinusitis; opaque displacement diagnosis, *681

Prophylaxis and treatment of septic meningitis, 967

Specific prophylaxis of pneumococcus and streptococcus meningitis; vaccine prophylaxis, *547

Amberg, E.: Illumination of ear; short historical sketch, *838

American Board of Otolaryngology, examination of, 331

Amersbach: Constitutional factor in so-called spontaneous radical operation, 330

Amygdalectomy: See Tonsillectomy

Anaphylaxis and allergy, interrelation of allergy and otolaryngology, *413

Anders: Section in septicopyemia after angina with comments on pathogenesis, 329

Anderson, C. M.: External operation on frontal sinus, causes of failure, *739

Anesthesia, intratracheal inhalation anesthesia in practice, *844

percain as anesthetic, 318

Angina, acute inferior tonsillitis (laryngeal angina), 640

necessity for clear definition of term "post-angineous sepsis," 328

pyemia following angina, observations in 100 cases, 328

Angina—Continued

recent progress in sphere of acute diseases of throat (agranulocytosis and lymphoid cellular angina), 132

section in septicopyemia after angina, with comments on pathogenesis, 329

Angioma, nature of angiomatosis, 467

Antrum, cannulas and trocars for operations on maxillary sinus through middle meatus, *289

carcinoma of, 484

complications in suppurations of, 468

injuries to teeth following radical operation on maxillary sinus and suggestion for their prevention, 790

irrigation of antrum by way of internal opening, 951

lymphatic drainage from, 662

method of radical operation on maxillary sinus with reference to possible injury to teeth and other complications, 935

motion picture demonstration of radical operation on maxillary sinus under local anesthesia (Caldwell-Luc), 493

mucosa of maxillary sinus of rabbit; effect of acidosis and alkalosis on changes in ciliated epithelium and eosinophilic infiltration produced by calcium precipitating substances, *270

natural orifice of maxillary sinus, anatomic studies, *80

natural orifice of, clinical studies, *716

odontoma of, *710

operative treatment for chronic inflammation of, 469

purpura as complication of suppuration of, 789

radiosensitive carcinoma of, 950

roentgen diagnosis of maxillary cyst, 327

sarcoma of, 945

unusual form of release following Luc-Caldwell's operation on, 645

Apparatus: See also Instruments

frame for holding head in operations on frontal sinus, *910

used for administration of iodine powder, 753

Arsenic medication, neuritis of auditory nerve occurring during intravenous arsenic medication; report of case with recovery, *284

Arteriosclerosis, anatomico-pathologic investigations on arteriosclerosis of internal auditory artery, 315

morphological and functional changes of internal ear in, 306

Arthritis and diseases of ear, nose and throat, 322

infections of throat due to hemolytic streptococci and their relation to arthritis and arthralgia; observations with reference to Streptococcus epidemicus of septic sore throat, *71

Ascaris in mastoid process, 784

Asthma, bronchial, clinical studies and observations in 314 cases, *165
bronchial, from rhinologic standpoint, 794
sinusitis and rôle it plays in production of, 793

Atelectasis: See Lung, collapse

Audition: See Hearing

Autotympanoscopy, 489

Bacteriostatic properties of secretions of sinuses, *190

Ballance, C.: Operative treatment of facial palsy by introduction of nerve grafts into fallopian canal and by other intratemporal methods, *1

Balmer, F. B.: Electrosurgery and otolaryngologist; including gradual extirpation of tonsils by electrocoagulation and diathermocryptectomy, *503

Becker, B. M.: Testing for perceptive deafness, 634

Berman, H. L.: New operation for ozena, *442

Bernheimer, L. B.: Saccharomycosis sensitization, 957
Toxoid in treatment of atrophic rhinitis, *746

Besredka's antivirus therapy and its action in furunculosis of auditory meatus, 314

Blackmar, F. B.: Iodine powder in treatment for nasal "catarrh," *752

Blohmke: Significance of roentgenograms of temporal bone in basal fractures, according to technic of Schueller, Stenvers and E. G. Meyer, 325

Blood, graphic hemogram after a new principle; its application in otitis media, 327

Bogan, F.: Mastoiditis with lateral sinus complication, 477

Bone, ultimate fate of bone transplanted into nose for purpose of correcting deformity, *563

Book Reviews:
Intracranial Pyogenic Diseases. A Pathological and Clinical Study of Pathway of Infection from Face, Nasal and Paranasal Air-Cavities; L. L. Turner and F. E. Reynolds, 157
Lehrbuch der Mund- und Rachenkrankheiten; J. Berberich, 797
Radiological Study of Para-Nasal Sinuses and Mastoids; A. Granger, 331
Sepsis nach Angina; O. Voss, 663

Brain, abscess in frontal lobe due to acute frontal sinusitis, *290
abscess in temporal lobe, 485
intracranial complications of otitic origin, *356
symptomatology and casuistics of latent otogenic cerebral abscesses, 311
syphilis complicated by trauma, 954
tumor, apparent effects on auditory acuity, report of case, *583

Bronchi, foreign body in, 488
metallic foreign bodies in, spontaneous expulsion of, 646

Bronchoscopy, pulmonary metastasis from hypernephroma diagnosed by, *368

Brown, G. T.: Perennial hay fever, *202

Campbell, E. H.: Relationship between status lymphaticus, thymus and suprarenal glands, *517
Serious complications following tonsillectomy, 151

Cancer: See also Tumors
about head and neck, 945
of neck involving larynx, 475
of throat, 483

Cannulas and trocars for operations on maxillary sinus through middle meatus, *289

Carter, W. W.: Ultimate fate of bone when transplanted into nose for purpose of correcting deformity, *563

Cataplexy and laryngeal vertigo, *534

Catarrh, iodine powder in treatment for nasal "catarrh," *752

Cemach: New method of heliotherapy for laryngeal tuberculosis, 330

Cerebellum, abscess, 462
cerebellopontile angle lesion syndrome, 485
chronic suppuration of middle ear with perforation of Shrapnell's membrane, suspected abscess of cerebellum: cyst from stasis of spinal fluid as result of hemorrhagic internal pachymeningitis, 465

Cerebrospinal fluid; chronic suppuration of middle ear with perforation of Shrapnell's membrane, suspected abscess of cerebellum; cyst from stasis of spinal fluid as result of hemorrhagic internal pachymeningitis, 465

Childrey, J. H.: Calcigerous metaplasia in auricle, report of 2 cases, *883

Chloroma, *610

Choanae: See Nose

Cholesteatoma, chemical diagnosis of, 637

Ciliary activity, physiology of drainage of nasal mucus; flow of mucus currents through drainage system of nasal mucosa and its relation to ciliary activity, *92

Claus: Present point of view concerning severe pyemia following angina; observations in 100 cases, 328

Clerf, L. H.: Peroral endoscopy, *445

Clinic, intimate notes on ear, nose and throat clinic, 963

Cocaine, sudden death 11 hours after tonsillectomy following local application of cocaine, *291

Colds, acute common cold, 951

Cranium, diseases of accessory sinuses and middle cranial fossa in axial roentgenograms, 325
intracranial complications of otitic origin, *356
osteodystrophia fibrosa of facial skull, especially its pathogenic position, 318
osteomyelitis of, and accesory sinus disease, *805

Cyst, congenital, of orbit of ethmoidal origin, 467
of nasopharynx, 787
roentgen diagnosis of maxillary cyst, 327

Davis, W. B.: Sinusitis in children, 659

Deaf-mutism, functional examination of hearing; deaf-mutism and education of deaf, *107

Deafness: See also Hearing
anatomy of deafness resulting from cerebrospinal meningitis; histologic aspects of chronic latent otitis interna, 310
bilateral, total, 785
chronic progressive deafness including otosclerosis and diseases of inner ear, *913
fifty cases of unilateral deafness, 7 of them congenital, 128
functional examination of hearing; deafmutism and education of deaf, *107
hard of hearing school child, 635
testing for perceptive deafness, 634

Diabetes, clinical and histologic observations in disease of ear in, 323
ear diseases in, treatment for, 324

Dickie, J. K. M.: Chronic progressive deafness including otosclerosis and diseases of inner ear, *913

Dintenfass, H.: Motion picture demonstration of radical operation on maxillary sinus under local anesthesia (Caldwell-Luc), 493

Diplopia without apparent limitation of ocular movements; rapid recovery after removal of nasal tumor, 934

Directory of otolaryngologic societies, 158, 332, 496, 664, 798, 970

Dispensary, intimate notes on ear, nose and throat clinic, 963

Dixon, F. W.: Mikulicz' disease and syndrome, *438

Donnelly, J. C.: Cerebrospinal rhinorrhea; report of 2 cases, 148

Druss, J. G.: Intracranial complications of otitic origin, *356
Pathologic changes in ear in Niemann-Pick's disease, *592

Duel, A. B.: Operative treatment of facial palsy by introduction of nerve grafts into fallopian canal and by other intratemporal methods, *1
Short résumé of results of Ballance-Duel research in nerve anastomosis and employment of nerve grafts in surgical treatment of facial palsy, 153

Dyspnea, motion picture demonstration of obstructive dyspnea: bronchoscopic observations, 494

Eagleton, W. P.: Suppurative meningitis of otitic and nasal origin, relation to blood stream invasion of pial vessels, *885

Ear: See also Deafness; Hearing; Mastoiditis
abscess, anatomic conditions as constitutional factors in occurrence of otogenic gravity abscesses, 322
anatomicopathologic investigations on arteriosclerosis of internal auditory artery, 315
anatomy and physiology of, review of recent literature, *755
arthritism and diseases of ear, nose and throat, 322
calcigerous metaplasia in auricle, report of 2 cases, *883
constitutional causation of outstanding auricles, 323
diseases in diabetes, treatment for, 324
diseases in diabetes, clinical and histologic observations, 323

Ear—Continued
drain, 929
exostosis causing pressure erosion and ankylosis of stapes, *258
furunculosis of auditory meatus, Besredka's antivirus therapy and its action in, 314
illumination of, short historical sketch, *838
in cases of intestinal intoxication in infants, *418
in tower head, 637, 930
influence of central nervous factors in some vestibular reactions, 323
inner; chronic progressive deafness, including otosclerosis and diseases of inner ear, *913
intracranial complications of otitic origin, *356
leukemic changes of upper respiratory tract and ear, 939
malformation of auditory apparatus in newborn associated with ectopic thymus, *671
Middle: See also Otitis media
middle, constitution and middle ear mucosa, 320
middle, familial occurrence of inflammatory diseases of, 464
middle, individual conditions of mucosa of middle ear in its development and structure, 320
middle, significance of position of head in insufflation of middle ear, 638
morphological and functional changes of internal ear in arteriosclerosis, 306
neuro-otologic cases, unusual, 954
normal and pathologic ears of nurslings and children, 129
of chondrodystrophic dwarf, 321
pathologic changes in ear in Niemann-Pick's disease, *592
physiopathologic examination of ear, 313
pressure atrophy of bony auditory meatus, 128
repair of postauricular fistula by means of free fat graft, *620
seeing own ear drum (autotympanoscopy), 489
surgical treatment for ear during early childhood and pneumatization development, 319

Electrode, useful self-retaining electrode for zinc ionization in chronic suppurative otitis media, *750

Electrosurgery as aid in rhinopharyngology, 130
gradual extirpation of tonsils by electrocoagulation and diathermocryptectomy, *503

Ellis, C. W.: Has tic douloureux a definite etiology? *218

Endoscopy, peroral endoscopy, *445

Enteritis, epidemic septic pharyngitis with severe enteritis, 787

Ephedrine sulphate in otitis media, *444

Ephetonin, influence of epinephrine and of ephetonin on reflexes of labyrinth, 126

Epinephrine: See Suprarenal Preparations

Epithelioma, papilloma of palate; squamous cell epithelioma of mucous membrane of tonsil; papillary cystadenoma of nasal vestibule, 641

Equilibrium: See also Nystagmus
testing equilibrium, 129

Esch: Roentgenotherapy of lymphatic pharyngeal ring in children, 327

Esophagus, congenital atresia with tracheo-esophageal fistula, 791
congenital shortness of esophagus, combined with thoracic stomach and with cardiospasm, 647
dental prosthesis located at entrance of esophagus for 2½ years, 470
pouch of, 472
retropharyngeal abscess: periesophageal abscess; mediastinitis, followed by esophageal stenosis, 947
treatment of malignant neoplasms of esophagus by means of radium, 936

Ethics, medical advertising, 959

Ethmoid sinuses, radiosensitive tumor of, 950

Eustachian tube, cicatricial occlusion of, 785
maneuver for opening spasmodically closed eustachian tube during catheterization, 312
should term tube occlusion be retained, 930

Evans, M. G.: Acute mastoiditis with meningitis, 475

Exner: Vestibular apparatus and spirometry, 327

Exostosis causing pressure erosion and ankylosis of stapes, *258

Eye, paralysis: vestibular nystagmus and cortical inhibition in paralysis of muscles of, 929

Eyelids, tumors of lids caused by foreign bodies after operation for acute mastoiditis, 2 cases, 310

Face, primary staphylococcus infections of nose, lips and face, 135

Faulknor, D. H.: Tracheal abscess; review of literature and report of cases, *103

Fibromyxomatous polyp of nose, 486

Fischer: Influence of central nervous factors in some vestibular reactions, 323

Fistula, branchial fistula, 474
branchiogenous fistula, 474
repair of postauricular fistula by means of free fat graft, *620
tracheo-esophageal, with congenital atresia of esophagus, 791

Flagg, P. J.: Intratracheal inhalation anesthesia in practice, *844

Flynn, J. A.: Atelectasis following aspiration of pecans, *268

Foreign body, aspiration of dental needles, prevention of, 471
atelectasis following aspiration of pecans, *268
in right bronchus, 488
pins at periphery of lung, observations based on 42 cases, *860

Fox, N.: Bilateral abductor paralysis, 943
Cerebrospinal rhinorrhea, 944
Cordopexy in bilateral abductor paralysis of vocal cords, 943
Paralysis of recurrent laryngeal nerve, 944
Pneumococcic membranous nasopharyngitis in infants, *426

Frackleton, R. J.: Pulmonary abscess following tonsillectomy, 473

Fred, G. B.: Mastoiditis with lateral sinus complication, 477
Pouch of esophagus, 472

Freedman, A. O.: Odontoma of maxillary sinus, *710

Friesner, I.: Intracranial complications of otitic origin, *356

Frontal sinus, abscess of frontal lobe due to acute frontal sinusitis, *290
external, operation on, causes of failure, *739
frame for holding head in operations on, *910
motion pictures of radical frontal sinus operations, 492

Furunculosis, Besredka's antivirus therapy and its action in furunculosis of auditory meatus, 314

Galloway, T. C.: Carcinoma of antrum, 484

Gangrene, primary, of pharynx, 4 cases, 465

Garland, F. E.: Acute sinusitis with orbital abscess, 472
Branchiogenous fistula, 474

Geiger, C. W.: Osseous choanal obstruction and adenoid tissue, *441

Glenn, F.: Histopathologic reactions of tracheotomic wound, experimental study, *389

Goldmann: Roentgen diagnosis of maxillary cyst, 327
Symptomatology of gumma of septum, 327

Gumma of septum, 484
of septum, symptomatology of, 327

Guttman, M. R.: Adjustable telescopic otoscope, *911
Laryngofissure, 487
Radiosensitive carcinoma of antrum, 950
Radiosensitive malignant growths about oral pharynx, 487
Rehabilitation of voice in laryngectomized patients, 478

Hagens, E. W.: Malformation of auditory apparatus in new-born associated with ectopic thymus, *671

Hall, A. K.: Pharyngomediastinal abscess, 649

Halper, P. A.: Amyloid tumors of upper air passages, 949

Hay fever, perennial hay fever, *202

Hayden, A. A.: Autotympanoscopy, 489
Medical advertising, 959

Hayden, D. B.: Cerebellopontile angle lesion syndrome, 485
Nasal polyp (fibromyxomatous), 486

Head, frame for holding head in operations on frontal sinus, *910
malignant growths about head and neck, 945
significance of position of head in insufflation of middle ear, 638

Headache and other nervous disorders in relation to sphenopalatine ganglion, 135

Hearing: See also Deafness
apparent effects of cerebral tumor on, report of case, *583
audition during noise, 312
bilateral abolition of vestibular apparatus with normal hearing, 310

Hearing—Continued
capacity and pregnancy, 464
case of diplacusis and modification of hearing by change in position, 637
disorders; hyperesthesia acoustica, 954
functional examination of hearing; deaf-mutism and education of deaf, *107
induced by electrostatic sound waves through body 324
mechanics of audition, 139
perception of direction of sound, 137
problems of experimental sound injury by way of bone conduction, 126
test with tuning forks, graphic method and chart for, *834
tuning fork exciter; sources of error in tests of hearing, *557

Heatley, C. A.: Motion pictures of larynx, 491

Heliotherapy, new method for laryngeal tuberculosis, 330

Hesse: Bacteriology of chronic suppurative otitis media, 326

Hewson, W.: Intimate notes on ear, nose and throat clinic, 963

Hilding, A.: Physiology of drainage of nasal mucus; flow of mucus currents through drainage system of nasal mucosa and its relation to ciliary activity, *92

Hirsch: Treatment for diseases of ear in diabetes, 324

Hoover, W. B.: Bilateral abductor paralysis; operative treatment by submucous resection of vocal cords, *339

Houser, K. M.: Sudden death 11 hours after tonsillectomy following local application of cocaine, *291

Hurd, L. M.: Frame for holding head in operations on frontal sinus, *910

Hyperesthesia acoustica, 954

Hypernephroma, pulmonary metastasis from hypernephroma diagnosed by bronchoscopy, *368

Hypopharynx: See Pharynx

Hypophysis: See Pituitary Body

Instrument: See also Apparatus
adjustable telescopic otoscope, *911
cannulas and trocars for operations on maxillary sinus through middle meatus, *289
mastoid rasp, *443
sponge-holder for adenoidectomy, *621
submucous flap punch, *754
useful self-retaining electrode for zinc ionization in chronic suppurative otitis media, *750

Intestine, otologic observations in cases of intestinal intoxication in infants, *418

Iodine powder in treatment for nasal "catarrh," *752

Jackson, C.: Pins at periphery of lung, observations based on 42 cases, *860

Jackson, C. L.: Pins at periphery of lungs, *860

Jaffe, R. H.: Leukemic changes of upper respiratory tract and ear, 939

Jaw, carcinoma of mandible, 946

Kahler: Hearing induced by electrostatic sound waves through body, 324

Kallen, L.: Discussion of vocal mechanism in laryngectomized patient, 479

Kimbrig, M.: Useful self-retaining electrode for zinc ionization in chronic suppurative otitis media, *750

Kirch, W.: Tumors of nose and throat, *623

Kleinert, M. N.: Branchial fistula, 474

Kolmer, J. A.: Prophylaxis and treatment of septic meningitis, 967
Specific prophylaxis of pneumococcus and streptococcus meningitis; vaccine prophylaxis, *547

Krainz: Osteomalacia of temporal bone, 321

Kraus: Constitutional factor in so-called spontaneous radical operation, 330

Krepuska: Anatomic conditions as constitutional factors in occurrence of otogenic gravity abscesses, 322

Kriegsman: Roentgenologic investigation of mastoid process after resolved otitis, 325

Krueger: Necessity for clear definition of term "postangineous sepsis," 328

Labyrinth, experimental determination of deviation of cupola terminalis in intact ampulla of labyrinth by caloric and rotation stimulation, 323
fistula, theory of labyrinth fistula symptom, 785
influence of epinephrine and of ephetonin on reflexes of labyrinth, 126
reticulum of ciliated cells of labyrinth of mouse, its independence from nerve endings of eighth pair, 784
testing equilibrium, 129

Lacy, N. E.: Nasal polypi associated with unsuspected malignant growth; report of case, *530

Laff, H. I.: Chloroma, *610

Laryngectomy, audible speech following, 947
case of, 476
discussion of vocal mechanism in laryngectomized patient, 479
for carcinoma of larynx, 489
rehabilitation of voice in laryngectomized patients, 478

Laryngofissure, 487
history of, 643

Laryngotracheitis, infectious, in chickens, 933
infectious, in chickens, histopathology, 933

Larynx, acute laryngeal obstruction in children, case reports, 642
cancer, 478
cancer healed by roentgen treatment, 317
cancer, laryngectomy for, 485, 489
cancer of neck involving, 475
cancer, total laryngectomy for, 643
cancerous degeneration of pachydermia laryngis, 933
continuous rhythmic movements of palate, pharynx and larynx, 489
diaphonoscopy of larynx in experimental phonetics, 788
inferior vocal organs, 936
laryngeal vertigo and its relation to cataplexy, *534

Larynx—Continued
motion pictures of, 491
papillomas and their treatment, 642
simultaneous occurrence of laryngeal tuberculosis and laryngeal syphilis, 788
technic of endolaryngeal radium irradiation, 643
tuberculoma of laryngeal ventricle resembling prolapse of mucous membrane, *382
tuberculosis, *293
tuberculosis, new method of heliotherapy for, 330
tuberculosis of, roentgen therapy in, 789

Lateral sinus, case of mastoiditis with lateral sinus complication, 477
thrombophlebitis of, and mastoiditis, 783

Lawson, L. J.: Adenoid sponge-holder, *621
Apparent effects of cerebral tumor on auditory acuity, report of case, *583

Lederer, F. L.: Malignant growths about head and neck, 945

Leicher: Arthritism and diseases of ear, nose and throat, 322

Lennon, S. W.: Carcinoma of tongue, 649
Otitis media following scarlet fever, 648
Tumor of nasopharynx, 648

Leshin, N.: Continuous rhythmic movements of palate, pharynx and larynx, 489

Leukemia, changes of upper respiratory tract and ear in, 939
granulocytosis and myelogenous leukemia in 2 sisters infected with same micro-organisms, 647

Levy, R.: Chloroma, *610

Lewy, A.: Carcinoma of larynx, 478

Lillie, H. I.: Suppuration of petrous pyramid, report of 2 cases, *692

Linton, C. S.: Bacteriostatic properties of secretions of sinuses, *190

Lips, carcinoma of lip with intensive operative radiation destruction, 946
cleft lip and palate, surgical correction, 646
primary staphylococcus infections of nose, lips and face, 135

Lung, abscess following tonsillectomy, 473, 786
collapse following aspiration of pecans, *268
foreign body; atelectasis following aspiration of pecans, *268
metastasis from hypernephroma diagnosed by bronchoscopy, *368
pins at periphery of, 42 cases, *860

Lupus vulgaris of nose and upper respiratory tract, treatment with radium, 466

Lymphadenosis, aleukemic lymphadenosis with involvement of mucous membrane in region of upper respiratory passage, 791

Lymphatism, relationship between status lymphaticus, thymus and suprarenal glands, *517

Lymphosarcoma of tonsil, *697

Lyons, D. C.: Relationship of oral and pharyngeal abnormalities to speech, *734

McGinnis, E.: Foreign body in right bronchus, 488

Maliniak, J. W.: Correction of nasal depressions by transposition of lateral cartilages; new method, *280

Martin, W. J., Jr.: Pulmonary metastasis from hypernephroma diagnosed by bronchoscopy, *368

Mastoid, ascaris in mastoid process, 784
carcinoma of tympanomastoid process, 948
clinical importance of mastoid antrum, *574
exploratory exposure of mastoid process in diagnosis of mastoiditis and in prophylaxis of otogenic intracranial complications, 312
internal osteoma of, 463
otologic observations in cases of intestinal intoxication in infants, *418
process, roentgenologic investigation of mastoid process after resolved otitis, 325
pneumatization of mastoid process, 320
rasp, *443
roentgenologic study in infants, 783

Mastoidectomy, constitutional factor in so-called spontaneous radical operation, 330
repair of postauricular fistula by means of free fat graft, *620

Mastoiditis, acute, with meningitis, 475
aerobic flora in acute and chronic mesotympanitis, 636
and thrombophlebitis of lateral sinus, 783
exploratory exposure of mastoid process in diagnosis of mastoiditis and in prophylaxis of otogenic intracranial complications, 312
tumors of lids caused by foreign bodies after operation for acute mastoiditis, 2 cases, 310
with lateral sinus complication, 477

Mauthner: Typical occupational injuries and constitutional predisposition, 330

Maxillary Sinus: See Antrum

Maybaum, J. L.: Otologic observations in cases of intestinal intoxication in infants, *418

Measles, histopathology of changes in tonsils during incubation period of measles; giant cells in tonsils, 640

Mediastinitis, retropharyngeal abscess; periesophageal abscess; mediastinitis, followed by esophageal stenosis, 947

Mediastinum, pharyngomediastinal abscess, 649

Meltzer, P. E.: Anatomy and physiology of ear, review of recent literature, *755

Ménière's Disease: See Vertigo

Meningitis, acute mastoiditis with, 475
anatomy of deafness resulting from cerebrospinal meningitis; histologic aspects of chronic latent otitis interna, 310
otitic, 308
pneumococcus and streptococcus meningitis, vaccine prophylaxis, *547
septic, prophylaxis and treatment of, 967
suppurative meningitis of otitic and nasal origin, relation to blood stream invasion of pial vessels, *885

Meyer: Constitution and middle ear mucosa, 320

Mikulicz' disease and syndrome, *438

Mittermeier: Diseases of accessory sinuses and middle cranial fossa in axial roentgenograms, 325

Moose, R. M.: Tuning fork exciter; sources of error in tests of hearing, *557

Movements, continuous rhythmic movements of palate, pharynx and larynx, 489

Muck's epinephrine probe test, 790

Mullin, W. V.: Interrelation of allergy and otolaryngology, *413

Mydriasis: See Pupils, dilatation

Myerson, M. C.: Cannulas and trocars for operations on maxillary sinus through middle meatus, *289

Natural orifice of maxillary sinus, anatomic studies, *80

Natural orifice of maxillary sinus, clinical studies, *716

Mysel, P.: Mastoiditis with lateral sinus complication, 477

Myxedema in patients with otorhinolaryngologic disorders, 470

Nares, operative treatment in atresia of nostrils, 317

Nasopharyngitis, pneumococcic membranous nasopharyngitis in infants, *426

Nasopharynx, cysts of, 787

tumor of, 638, 648

Neck, carcinoma of neck involving larynx, 475

malignant growths about head and neck, 945

value of roentgenologic examination of neck, *371

Nelson, R. F.: Ephedrine sulphate in otitis media, *444

Nemours, P. R.: Mucosa of maxillary sinus of rabbit; effect of acidosis and alkalosis on changes in ciliated epithelium and eosinophilic infiltration produced by calcium precipitating substances, *270

Nerve, acoustic, transaural operation on neoplasms of, 463

graft, short résumé of results of Ballance-Duel research in nerve anastomosis and employment of nerve grafts in surgical treatment of facial palsy, 153

grafts, operative treatment of facial palsy by introduction of nerve grafts into fallopian canal and by other intratemporal methods, *1

laryngeal paralysis of recurrent nerve, 944

neuritis of auditory nerve occurring during intravenous arsenic medication; report of case with recovery, *284

paralysis of recurrent laryngeal nerve, 316

Neuritis of auditory nerve occurring during intravenous arsenic medication; report of case with recovery, *284

optic, rhinogenous, retrobulbar, 644

relation of isolated retrobulbar optic neuritis to inflammations of nasal sinuses, 645

Neuroma, case of, 476

New, G. B.: Tumors of nose and throat, *623

Niemann-Pick's disease, pathologic changes in ear in, *592

Nose: See also Nasopharynx

Accessory Sinuses: See Sinuses, Nasal

arthritism and diseases of ear, nose and throat, 322

bleeding treated with radium; method of application, *617; correction, 797

carcinoma of, 946

choanal atresia, anatomy of double congenital choanal atresia, 325

correction of nasal depressions by transposition of lateral cartilages; new method, *280

Nose—Continued

deformities and their correction, 653

deformities, implants in nasal deformities; history and uses, 654

deformities; plastic surgery; method for repair of syphilitic nose, *906

deformity, ultimate fate of bone transplanted into nose for correction of deformity, *563

discharge, cerebrospinal rhinorrhea, 148, 944

fractures in roentgen picture, 134

gumma of septum, 484

gumma of septum, symptomatology of, 327

iodine powder in nasal "catarrh," *752

lupus vulgaris of nose and upper respiratory tract, radium in, 466

osseous atresia of posterior choanae, *101

osseous choanal obstruction and adenoid tissue, *441

physiology of drainage of nasal mucus; flow of mucus currents through drainage system of nasal mucosa and its relation to ciliary activity, *92

polyp (fibromyxomatous), 486

polypi associated with unsuspected malignant growth; report of case, *530

septal deviations, mucoperiosteal covering of nasal septum and its consideration in surgical treatment of, 469

staphylococcus infections of nose, lips and face, primary, 135

submucous flap punch, *754

tumor; diplopia without apparent limitation of ocular movements with rapid recovery after removal of nasal tumor, 934

tumors of nose and throat, *623

Nostrils: See Nares

Nystagmus, vestibular, and cortical inhibition in paralysis of muscles of eye, 929

Occupational injuries, typical occupational injuries and constitutional predisposition, 330

Oculogyric crises, 954

Odontoma of maxillary sinus, *710

Orbit, abscess in case of acute sinusitis, 472

carcinoma of, 945

congenital cyst of ethmoidal origin, 467

malignant tumors of orbit and accessory nasal cavities, surgery of, 646

Osteitis fibrosa (Paget) of temporal bone, 314

Osteodystrophia fibrosa of facial skull, especially its pathogenic position, 318

Osteoma, internal, of mastoid, 463

of paranasal sinuses case report, 152

Osteomalacia of temporal bone, 321

Osteomyelitis, acute diffuse otogenic osteomyelitis of both temporal bones, 314

association of osteomyelitis of skull and nasal accessory sinus disease, *805

so-called otogenic, acute progressive osteomyelitis of temporal bone in children, 129

Otitis, aerobic flora in acute and chronic mesotympanitis, 636

bacteriology pathogenesis and therapy of otitis complicating scarlet fever, with reference to constitutional factors, 321

interna; anatomy of deafness resulting from cerebrospinal meningitis; histologic aspects of chronic latent otitis interna, 310

media, acute, 462

Otitis—Continued
media, acute inflammation of middle ear during childhood, 128
media as pediatrician sees it, 304
media, bacteriology of chronic suppurative otitis media, 326
media, chronic, with perforation of Shrapnell's membrane, suspected abscess of cerebellum: cyst from stasis of spinal fluid as result of hemorrhagic internal pachymeningitis, 465
media, clinical and pathologic experiences in otitis media during childhood, 464
media, ephedrine sulphate in, *444
media following scarlet fever, 648
media, graphic hemogram after new principle; its application in otitis media, 327
media, new and effective non-surgical method for treatment of, 783
media, relations between roentgenologic and clinical symptoms in acute otitis, 931
media, severe intoxication in clinically latent otitis, 929
media, surgical treatment for ear during early childhood and pneumatization development, 319
media, useful self-retaining electrode for zinc ionization in chronic suppurative otitis media, *750

Otolaryngologic societies, directory of, 158, 332, 496, 664, 798, 973

Otosclerosis, biological factor in analysis of otosclerosis or otitic senility, 307
chronic progressive deafness including otosclerosis and diseases of inner ear, *913
examined by means of polarized light: problems of fibrils and cement lines, 127
in polarized light, 326

Otoscope, adjustable telescopic, *911

Oxycephaly, involvement of ear in tower head, 637, 930

Ozena: See Rhinitis

Pachydermia laryngis, cancerous degeneration of, 933

Pachymeningitis, chronic suppuration of middle ear with perforation of Shrapnell's membrane, suspected abscess of cerebellum: cyst from stasis of spinal fluid as result of hemorrhagic internal pachymeningitis, 465

Palate, cleft lip and palate, surgical correction, 646
continuous rhythmic movements of palate, pharynx and larynx, 489
papilloma of palate; squamous cell epithelioma of mucous membrane of tonsil; papillary cystadenoma of nasal vestibule, 641

Papillomas, laryngeal, treatment of, 642
of palate; squamous cell epithelioma of mucous membrane of tonsil; papillary cystadenoma of nasal vestibule, 641

Paralysis, abducens: nonfebrile sinus thrombosis with paralysis of abducens, 135
abductor, bilateral 943
abductor, bilateral operative treatment by submucous resection of vocal cords, *339
abductor; cordopexy in bilateral abductor paralysis of vocal cords, 943

Paralysis—Continued
bilateral posticus, treatment for stenosis of, 471
facial, operative treatment by introduction of nerve grafts into fallopian canal and by other intratemporal methods *1
facial: pathologic anatomy of otogenic facial paralysis, 325
facial; pathology of otogenic facial paralysis, 136
facial, short résumé of results of Ballance-Duel research in nerve anastomosis and employment of nerve grafts in surgical treatment of facial palsy, 153
recurrent laryngeal nerve, 944

Pearlman, S. J.: Carcinoma of throat, 483
Carcinoma of tongue, 649
